

### **Ft. Pierre Livestock Market Report — Friday, March 13<sup>th</sup>, 2020**

Had a much smaller run of cattle, due to miserable market conditions. Had a good crowd of buyers, and everything considered, a fairly active market. Packers gross revenue live equivalent Friday morning was \$136.79 live. The only bids I could find out about on fat cattle were approximately \$102 live. That's \$34.79 per hundred on a 1500 lb. steer, which equals \$521 per head gross profit. In my opinion, these packers are using this Coronavirus ordeal as an excuse to suck the life blood out of the cattle industry through criminal activity. After all, price fixing is against the law. We encourage everyone to give your US senators and representatives a piece of your mind as to why the federal government (Justice Dept. and GIPSA) are not enforcing the laws already on the books. Your livelihood depends on it..!!!
