

Ft. Pierre Livestock Market Report — Friday, July 31st, 2020

Had a good run of weighups, 6 weighup buyers, market roughly steady.

Had a big run of yrlds, and fall clvs, a large crowd of buyers, and a very strong market.

Better kill cows \$68 to \$75.50 - cowetts to \$77 on a light test - hfrts to \$85 on light test - low yielding & big bellied cows \$60 to \$70 - shells below \$60 –bulls-low end \$80 to \$90- better end \$90 to \$104.50 - cutting bulls to \$114

It would appear that packer profit margins are around 500 dollars per hd, but the word on the street is that only a small percentage of the meat sales get reported. So who knows what the real packer profit margin is – maybe 700 or 800 per hd?? The producers – feeders are getting royally screwed and the consumers are getting royally gouged!!! All because of monopolization of the packing industry by 4 major packers (2 of them foreign entities). It's getting hard to believe that the US government has any kind of a real investigation going, cause anyone with half a brain could have figured this deal out in a couple weeks at most.

YRLGS – All off grass unless marked Dry Lot
